

Harvest, all 6 requests inspected: the old buffer hid real differences between reviewers

23 Sept: fixed weather buffer

R1: calibrated 5% chance constraint

Open-loop scoring on requests from unregulated runs (initially safe states). Left: 23 Sept confirmation (3,687 safe / 1,368 risky). Right: R1, 64 fresh contexts (2,016 safe / 720 risky). Bottom-left corner is best.
